## Software Engineer

I am a dedicated and experienced web developer with over 4 years of expertise in creating and maintaining high-performing websites. I have successfully contributed to projects for reputable companies such as Optech and Dahab Informatics. My core skills include front-end and back-end development, server optimization, and SEO enhancement. I excel in environments that demand both conceptual and analytical thinking, and I am proficient in using CMS platforms to streamline content management.

Notable achievements include leading a full project lifecycle at Optech, resulting in a 20% increase in e-commerce activity efficiency, and implementing key SEO strategies that boosted website traffic by 30% at Dahab Informatics. My ability to troubleshoot and resolve complex issues, combined with a commitment to delivering high-quality solutions, ensures that I am a valuable asset to any development team.
