PROFESSIONAL SUMMARY

Full Stack Developer with experience in e-commerce, CMS platforms, SEO, server troubleshooting, and web systems. Currently expanding into automotive OEM diagnostic devices, multibrand OEM tools, tuning tools, ECU programming tools, EV chargers, and diagnostic tools.

EXPERIENCE

Product Engineer & OEM Solutions Executive — Automax Tools Trading L.L.C., UAE (Apr 2026 – Present)

- Support automotive workshops, garages, service centers, dealers, and B2B customers with OEM diagnostic devices, tuning tools, ECU programming tools, EV chargers, and professional diagnostic solutions.
- Provide technical product guidance for multibrand and other vehicle diagnostic requirements.
- Combine automotive product knowledge with full-stack development and e-commerce experience to support online catalogs, product presentation, and customer inquiries.

Senior Full Stack Developer — Al Muhandes Workshop TR, UAE (Feb 2022 – Mar 2026)

- Maintained, configured, and troubleshot servers; optimized loading speed and website capacity.
- Tested websites across browsers and devices; debugged pages, fixed broken links/images, and reviewed SEO.
- Led development of new features that improved performance and operational efficiency.

Senior Full Stack Developer — Optech, UAE (Oct 2022 – Nov 2023)

- Installed plugins and added custom coding to meet design and functionality needs.
- Resolved UI/UX issues, updated website content, improved SEO, and ensured functionality across CMS platforms.

Junior Full Stack Developer — Dahab Informatics, Egypt (Feb 2021 – Dec 2021)

- Participated in all phases of development: design, repair, testing, and deployment.
- Tracked e-commerce effectiveness, worked with CMS platforms, maintained database schema and documentation.

Help Desk Technician — AHI Institutes (Oct 2018 – Dec 2021)

- Provided technical support to staff, troubleshot system issues, maintained documentation, and suggested system improvements.
